HELIKON-TEX®

Helikon-Tex® was established in Poland in 1983. During our first decade, our business activity was primarily focused on the sale of military surplus equipment. In order to better serve the demands of current and potential customers, we started our own military/paramilitary and outdoor clothing production in 1999. Our products are proof that the decision was right, which is why we are proud to offer you a wide range of uniforms, tactical clothing, backpacks and equipment that have gained special recognition among soldiers, policemen, law enforcement officers, and survival and outdoor enthusiasts all over the world.

At Helikon-Tex® we strive to deliver cutting edge designs by matching our enthusiasm for perfection with demanding expectations.

You're welcome to join us on our journey to perfection.

MACIEJ STEBEL

Maciej Stebel who works as a Sheriff in the USA is a personification of the #journeytoperfection slogan. After his first visit to the United States of America he immediately fell in love with the country and decided to settle down there and start a family. His career started as a volunteer fireman and he has completed school for EMT medics and he is currently EMT-Advanced. His determination led in 2016 to him achieving his goal of becoming a Deputy Sheriff in Douglas county in Nevada. Besides that, his passions are off road, shooting and photography. He runs a well-known blog, Szeryf w USA (szeryfwusa.com - Sheriff in the USA). Maciej Stebel is now a Helikon-Tex ambassador for the Urban line.

MARCIN "TAŚTAŚ" TAUSIEWICZ

50,000; this is how many rounds the Ambassador for the Helikon-Tex Range Line shoots during one competition season. "TaśTaś", because this is what his shooting colleagues call him, is a multiple Polish Champion in IPSC pistol - Production class. After moving to the Open class, he did not slow down and with the BUL Armory pistol in his hands won another two Polish Championship titles, and also added further wins in the IPSC Slovakia Championship 2018/2019. With the yellow chameleon on his shirt, he also won the Polish IPSC Championship in the Open class. His hegemony in Central Europe has been going on since 2012. He shares his knowledge of sport shooting within the Daniel Defense Academy. He has been accompanied by Helikon-Tex equipment from the Range Line for years, and as he says, his #journeytoperfection is still going on.

MARCIN JĘDRZEJCZAK

Shooting equipment designer and Helikon-Tex Range Line Ambassador, Marcin is a weapons expert with twenty years of experience in the industry. He now passes on his knowledge as a Streetsmart Instructor in his own shooting and self-defense school. He teaches that good results at the shooting range are just the beginning of the road in the use of a weapon in a self-defense scenario, and only training and simulation of real threats will help defend yourself and your family like the #journeytoperfection slogan states. By designing Helikon-Tex equipment for shooters, he creates solutions that he later uses. He is most proud of the development of Training Mini Rig, a modern system for carrying ammunition and tools for shooting training. He focuses on functionality, durability, and comfort, and the tenet that equipment that comes out of his hand must also look good.

DAVE CANTERBURY

One of the most recognized survival and bushcraft experts in the world, Dave served in the US Army, and as a commercial fisherman, a Hunting Guide, and he has even worked on a reptile farm! For much of his life, he has gathered experience on how to survive in the harshest of environments. Founder of The Pathfinder School that has its base in the USA, in the Ohio region, he also conducts training all over the world. He passes on his knowledge via his Youtube channel - "David Canterbury" - one of the largest in its category. Author of NY Times Bestselling books like "Bushcraft 101: A Field Guide to the Art of Wilderness Survival", he also had an opportunity to be apart of a National Geographic Channel show called Dirty Rotten Survival. Dave constantly trains and develops his skills and during work and play he uses gear from the Helikon-Tex Bushcraft line. Like Helikon-Tex, he is driven by the #journeytoperfection rule.

PAWEŁ "SUPER" SUPERNAT

Bushcraft line ambassador and outdoor equipment designer at the same time, "Super" has been engaged in the outdoor community and survival training community from his youth. His #journeytoperfection began with acting and training as a scouting instructor. He served in the elite Polish 1st Commando Regiment, gaining experience that he now passes to hundreds of people every year. In 2010, he founded SurvivalTech, a leading brand in the Polish survival training market. Since 2015 he has been involved in the development of the Helikon-Tex Bushcraft Line. In his free time he likes to wander in wilderness, and he admits that it is when he comes into contact with wildlife that the best ideas for new outdoor equipment come to his mind. He is also involved in charity campaigns, including that to benefit the Children's Hospice in Częstochowa.

NAVAL

“In life, you have that which you dare to get” - says Naval who served for 14 years in GROM, a Polish elite special forces unit that is on the same level as US Navy SEALs or the UK SAS. Naval dared to take the long, hard road from being a locksmith-welder, through serving in the Polish Military Forces and ending up as an elite operator that has been a part of many combat missions in Iraq and Afghanistan. For his achievements, he has been decorated with many military decorations, among them the Golden Badge of GROM, the biggest honor that can be bestowed upon a soldier of that unit. After he left the army he became an author of popular books like “Camp Pozzi. GROM in Iraq” or “Extreme. Training Guide”. Video game fans know him for being one of the models for a character of a soldier of GROM in the Medal of Honor: Warfighter. Naval still keeps his form and is very active, taking part in extreme running events, performing advisory functions on safety matters, along with supporting charity campaigns and veterans. His whole life is a constant implementation of the motto #journeytoperfection. Naval has become the Helikon-Tex ambassador for the Patrol line.

ŁUKASZ TULEJ

He rode on his bike across the desert in Jordan and rode on a horse across the mountains of Mongolia. "I travel and every next expedition always perfects me in the art of survival For me the outdoors is something more than a passion - it's a way of life" says Łukasz who daily makes the #journeytoperfection motto a reality. He uses survival and contact with nature as a tool of personal and social growth, and gear from Helikon-tex helps him in this. He is the founder of the "Sobrevivencia con Machiguenga" survival school in Peru where he teaches how to survive in Selve. He says that the recognition from the Mongol Rangers, Jordan bedouin and Peru Machiguenga with who he has trained is the highest honor and a sign that he has chosen the right path in life. He invites you to join him in his adventures, adults, kids, and even whole families. He appears in a series of the TV show called "Natural Poland" and "Survival Family" on Planete+. Łukasz Tulej has become an ambassador for the Outback line.

TROLLSKY

Custom knife maker. An enthusiast of whiskey, watches, HEMI engines, firearms and clothing which do not restrict movement at work and in daily life, and sometimes he isn't quite politically correct! Trollsky, or Michał Sielicki, lives by his own set of rules. At medieval re-enactment gatherings he noticed that it was difficult to find a well-made knife. He began to forge the knives he needed and in a few years he gained recognition and not just from armourers. He quit his job in the IT department of a large, international company because, as he says, he was tired of scrubbing floors at the corporation. The morning after his thirty-fifth birthday, he said to his wife "Honey, I quit my job and now we will start living off making knives". The wife only replied, "Well, finally!" He took a chance and became one of the most recognized and respected knife makers in the world. Many people consider his hand-made knives to be works of art, although he admits that he simply provides work tools for people on all continents who need cold steel forged in flaming fire. He took part in the "Forged in Fire" program on American History Channel television, in which the best smiths of the world competed. He has also presented his knives at the Blade Show in Atlanta. Trollsky has become the ambassador of the Helikon-Tex Morale line because his life is a constant #journeytoperfection, which he follows without compromise.

PANTS & SHORTS

UTF (URBAN TACTICAL PANTS FLEX)®

CODE: SP-UTF-NR

DESIGN:

Following up the popularity of the Urban Tactical Pants®, we've decided to release their new version – Urban Tactical Flex Pants®. Even though the main construction of the pants is the same as in the UTP, there are some major changes. The most important change is the fabric – we've decided to use nonelastic NyCo fabric, which is known to be one of the best and most durable clothing fabric on the market. To maintain the users freedom of movement, we've decided to add VersaStretch® elastic panels in the crotch and back neck area. The cut and pockets layout employed in these pants maintain civilian look, while retaining full functionality of combat pants, capable of supporting tactical essentials. Elastic hook&loop-closed belt allows easy adjustment. Wide belt loops allow as wide as 50 mm belt, including all Helikon-Tex® tactical belts: MidPro Belt, UTL or Cobras.

FABRICS:

OTP (OUTDOOR TACTICAL PANTS)®

CODE: SP-OTP-NL

DESIGN:

Many of our customers operate not only in cities, but in the boondocks as well. Listening to their positive feedback about using UTP®, our designers have created their special outdoor version – that is how Outdoor Tactical Pants® were born. They have retained all functionalities of their predecessor, but some details were tweaked to better fit the terrain use. The fabric used is light, elastic and superbly breathable. Lends itself superbly for outdoor activities. Protects from light rain and wind. Dries quickly.

WOODSMAN PANTS

CODE: SP-WDN-DC

DESIGN:

WOODSMAN pants are part of our set made especially for outdoor and bushcraft enthusiasts, and these simple yet versatile pants offer our minimalistic approach to this type of clothing. The pants have only four pockets; two classic hip pockets with reinforced edges and two smaller side pockets, positioned a bit to the rear, that can hold a folding saw or a knife. Wide belt loops will work even with 50 mm belts, while additional loops on the back can be used for attaching gloves or your cap. Knee reinforcements and overall construction in DuraCanvas® fabric will ensure that these pants last and work with you for years.

COVERT M65 JACKET

HELIKON-TEX®
URBAN LINE**CODE:** KU-C65-DC**DESIGN:**

The M65 jacket is an instantly recognizable and iconic garment. Born in the Vietnam War era, it soon became a cult classic. Even though it is a great jacket though, it is now a little dated. This is why we've redesigned it a bit, to create a great urban jacket. Made of durable DuraCanvas® fabric it will protect you against light rain and wind, keeping you warm in colder days. The front is closed with a heavy-duty zipper and wind flap with large, Canadian style buttons. Numerous pockets will hold all your gear, and what is even cooler, one of the internal pockets can be unfastened from the jacket and used as an improvised, small waist bag. With reinforcements on the key areas, a collar-stowed hood and military look this jacket is a truly versatile everyday garment.

FABRICS:

DC: Main: 65% Polyester, 33% Cotton, 2% Elastane, Insert: 93% Nylon, 7% Elastane, Mesh: 100% Polyester

URBAN HYBRID SOFTSHELL JACKET®

CODE: KU-UHS-NL

DESIGN:

A softshell, as the name implies, should be soft, yet able to shield the user from elements. Urban Hybrid Softshell sets a new standard. By combining as many as three raw materials we have created a lightweight, expandable and breathing urban jacket. Urban Hybrid Softshell protects from wind, while the DWR (Durable Water Repellent) coating repels rain-water. Four pockets allow equal distribution of every day carry essentials, while small size allows it to be carried folded in a backpack while not in use.

WINDRUNNER WINDSHIRT®

CODE: KU-WDR-NL

DESIGN:

Windrunner is an ideal carry-on item – in a bag or backpack – because of its minimum weight and size when folded. Ultralight, tight-woven Nylon fabric protects from the wind, and if the DWR coating is regularly maintained, also from light rain. Windrunner would also be an ideal garment for jogging. Mesh ventilation slats in armpits allow air circulation. On a cooler day, worn on top of a fleece, keeps the body warmth from escaping and protects against wind chilling. Large channel pocket would accommodate a cap, gloves or a buff. Two small flat pockets inside the large pocket would help to organize small items like a smartphone or cards holder.

FABRICS:

NL: 100% Nylon

SIZE:

NL: XS/Regular - XXXL/Regular

WEIGHT:

NL: 200 g

COLORS:

NL: 01 / 09 / 11 / 14 / 23 / 35 / 36 / 45

FEATURES:

- Double adjustable hood with laminated visor
- Elastic adjustment on the jackets bottom
- Elastic cuffs
- Elbow reinforcements
- Integrated into jacket mesh pocket with compression strap (can be used as inner pocket)
- Large front through, zippered handwarming pocket with inner key/phone pocket
- Mesh ventilation openings under armpits
- YKK® zippers

PILGRIM ANORAK JACKET®

CODE: KU-PGM-DC

DESIGN:

Pilgrim Anorak® is an all-weather intensive-use outdoor coat. The elongated cut, armpit ventilation and large, functional hood protect the wearer from wind, rain or snow. There are four chest pockets, two handwarmer ('Napoleon') pockets and two oblique large Canadian button-closed ones. In the lower part there is a large, open-ended tunnel pocket. The anorak can be worn half-open to avoid sweating in summertime, contrary to most other anoraks. Two ribbon bands are sewn inside for drying wet gloves or for carrying a small water bottle in wintertime.

WOODSMAN ANORAK JACKET®

HELIKON-TEX®
BUSHCRAFT LINE**CODE:** KU-WDN-DC**DESIGN:**

Anorak based on the Mistral Jacket. In the bushcraft version the jacket is made of fabrics more suitable for outdoor and camping. The front was made of DuraCanvas® fabric, therefore it is flash resistant (sparks etc) and durable enough not to be damaged by sharp parts of plants. The back of the jacket was made of StormStretch® fabric, to provide better breathability. The whole jacket is highly wind resistant and very durable. Woodsman Jacket has three pockets, including one kangaroo on the front with integral organizer. Sides are fully zippered to the arm pits to provide easy don and do. The side zippers can also be used as ventilation. The hood is double adjustable.

EDC SLING BACKPACK®

CODE: PL-ESB-CD | NL

DESIGN:

EDC Sling Backpack is truly a compact, yet versatile sling pack. It was designed to provide as much personalization capabilities as possible. Therefore, the main compartment lacks any internal pockets and instead is lined with soft velour compatible with Versatile Insert System®. Additionally, on the front part of the pack, there are two pockets – one zippered with the side access and one open-top, secured with the buckle, partially elastic that will hold a small jacket or shirt. A very important part of the pack is the hidden back compartment. Closed with the zipper with quick access via a hypalon puller. The interior is lined with the soft velour, designed mainly for attaching a pistol holder insert. Thanks to this, you are able to carry your handgun truly concealed, without limiting the rapid access to it. Last but not least, the pack is equipped in a padded, profiled shoulder strap with a small, zippered pocket.

ENLARGED URBAN TRAINING BAG®

HELIKON-TEX®
URBAN LINE**CODE:** TB-UTE-CD**DESIGN:**

Even though our Urban Training Bag was created as a large, soft bag for a gym, it turned out to be a perfect travel bag. However, we soon noticed, that it can be a little bit too small and too soft for longer trips. This is why we've decided to create the Enlarged Urban Training Bag. Based on the similar pattern, this bag has also a large zippered main compartment, two zippered pockets on shorter sides, and one flat zippered pocket on longer side. Additionally inside the main compartment there is a mesh zippered pocket for your smaller essentials. The bag is equipped with comfortable, padded shoulder strap, as well as webbing carrying handles. On the sides there are two shorter drag handles that can come in handy when you will have to take the bag out of the car's trunk or back of your pickup. The bottom of the bag has a detachable internal stiffener, as well as external rubber feet that will protect the bottom from getting damaged and isolate it from the dirty ground.

BUSHCRAFT HAVERSACK BAG

CODE: TB-HVS-CD

DESIGN:

Since the dawn of time, the man moved his basic equipment in a light leather bag and in the later times made out of the canvas. Such a simple bag was called "haversack". At first glance Haversack is simple, but in reality, it is an advanced piece of equipment for the Bushcraft line. It accommodates a bottle of water, food, and equipment for lighting a fire. It is covered by a flap with a classic British fastening from the 80s. In the front pocket, it is possible to attach inserts from the VIS system. You can put an ax, a saw or a knife on the sides. Additional equipment can be attached to MOLLE/PALS straps. It is comfortably carried on a thick 50 mm strap. Haversack is a modern bag with a look referring to the equipment of the last century.

TRITAN™ WIDE MOUTH BOTTLE (1000 ML)

HELIKON-TEX®
BUSHCRAFT LINE

CODE: HY-WM1-TT

DESIGN:

Water is life. It's the water availability that often decides the outcome and route of our hike. Lazily flowing creek makes for ideal night relaxation and sleep. But sometimes you have to move on. One can't take the whole creek with him, but we offer the Tritan™ Water Bottle though, that takes a liter of water, or any other liquid. Tritan™ is a material that does not affect taste and is perfectly inert towards anything drinkable for humans. Additionally, the material is real tough, almost indestructible. The wide inlet allows one to scoop-up the creek water, and also to use a spoon to stir anything soluble dumped there. Last but certainly not the least & the wide neck prevents the contents from freezing up in winter. The water bottle fits the Camp Cup and Essential Kitbag® set.
